Project Name	Emotion Detection and Learning Support Engine
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS	THINKS
☐ "I find some topics difficult to understand." ☐ "I wish the learning platform knew when I'm confused." ☐ "I lose motivation when I don't understand a concept." ☐ "I need learning material that matches my	☐ "Am I the only one struggling with this topic?" ☐ "I need personalized guidance instead of generic lessons." ☐ "If someone could identify when I'm frustrated, learning would be easier." ☐ "I want to improve

current mood." •		without feeling stressed." •
Online Student <i>College Student using an AI-powered Learning Platform</i>		
• DOES • ☐ Watches online lectures and tutorials. ☐ Replays difficult videos multiple times. ☐ Searches YouTube or Google for simpler explanations. ☐ Takes quizzes and practices problems but sometimes gives up when frustrated. •		• FEELS • Confused when concepts are difficult. • Frustrated after repeated mistakes. • Stressed before exams and assignments. • Happy and confident after understanding a topic or receiving personalized support. •
